

Ali Suleiman
Expert
Economic Development Department

Ali joined the General Secretariat for Development Planning (GSDP) in 2007 as an Economic Expert at the Economic Affairs Department. His current work centers on the development of Knowledge-Based Economies. Prior to joining the GSDP, he served as Director of Economic Research & Consulting Services Department at Brogan Inc. in Ottawa, Canada. His area of work focused on market access, pricing and reimbursement strategies, trending analysis, and providing strategic advices on various policy related issues.

Ali's career over the last 13 years has given him experience in a variety of roles and responsibilities. He has had working experience in conducting economics and policy analysis, strategic planning, business process improvement, project management and database design and data manipulations. He has conducted numerous research studies on issues related to market access strategies, pricing and reimbursement strategies, knowledge economies, small and medium Enterprises development and has published a number of research reports.

Ali has a Master's of Art, specializing in applied economics, from Carleton University, Canada and a B.A. in management Science from Bilkent University.
